Nippon India Mutual Fund
MF/022/95/1

Why Equity ETF?

- **Ease of transaction -** Can be easily bought / sold like any other stock on the exchange through terminals spread across the country
- **Ease of Liquidity -** Can be bought / sold anytime during market hours (subject to availability of buyer/seller) at prices prevailing in the market. Thus, investor transacts at real-time prices
- **Low Cost -** Generally less expensive than investing in multiple individual securities.
- **Other Special Features**
  - Instant diversification through exposure to a large number of stocks by purchasing as low as 1 unit
  - Buying / selling at close to live price and not end-of-day, also ability to put limit orders
  - Authorised Participants/ Market Makers Participants / Large investors can buy directly from the AMC at Live Prices in creation unit sizes

Strategies used through Index based Equity ETFs

- **Liquidity Management -** ETFs can be used for a given percentage of each asset class to provide a liquidity buffer across the asset allocation
- **Portfolio Completion -** ETFs allow investors to gain exposure to an asset class that is under-represented in the asset allocation
- **Cash Equitization –** ETFs assist in remaining fully invested into equity as per the allocation model, while maintaining liquidity, thus minimizing the cash drag effect on the portfolio
- **Portfolio Transitions –** Since ETFs are passive funds, they may help to maintain market exposure while there are changes in sector/stock allocations in a portfolio, hence avoids the risk of missing any market movement

Transaction Options available for investors

Subscription	Process	Features
Through Stock Exchange	Online Terminal / Stock Broker	• Can trade as less as 1 Unit • Unit credit on T+1 • Transaction on Exchange traded price • No paperwork • Transaction on order matching and availability of quotes
Through AMC (Authorized Participants/ Market Makers Participants & Large Investors)	Transaction form with requisite documents	• Can transact in multiples of creation unit size^ • Transaction in exchange of Portfolio deposit & Cash Component
Redemption	**Process**	**Features**
Through Stock Exchange	Online terminal / Stock Broker	• Can trade as less as 1 Unit • Amount credited T+1
Through AMC (Authorized Participants/ Market Makers Participants & Large Investors)	Redemption Request	• Can trade in multiples of creation unit size^ • Transaction in exchange of Portfolio deposit & Cash Component

Creation Unit Size

Creation Unit size is the minimum denomination of unit that can be directly purchased/redeemed from AMC

Tradable Unit	Composition	Creation Unit Size^	NAV Value (Rs.)*	Approx. Basket Value (Rs.)*
1 Unit Nippon India ETF Nifty Bank BeES	~ 1/100 of Nifty Bank Index	5,000 units of Nippon India ETF Nifty Bank BeES	601.64	30,08,188

*Data as of 31st August, 2026 taken as reference value

Importance of Creation Unit Size

- In case of non-availability of sizeable quote, Investors can transact with the AMC in creation unit lots^
- Investors can transact both in form of cash or stock basket comprising the index
- Units are created at live NAV price plus expenses

Nippon India ETF Nifty Bank BeES

Investment Objective Nippon India ETF Nifty Bank BeES

The investment objective of Nippon India ETF Nifty Bank BeES is to provide returns that, before expenses, closely correspond to the total returns of the Securities as represented by the Nifty Bank Index. There can be no assurance or guarantee that the investment objective of the Scheme will be achieved.

Positioning – Nippon India ETF Nifty Bank BeES

- Nippon India ETF Nifty Bank BeES is an Exchange Traded Fund (ETF) listed on NSE, and invests in stocks of Nifty Bank Index in the same proportion as the underlying Index
- Nippon India ETF Nifty Bank BeES is less expensive than investing in individual securities of the Nifty Bank Index.
- It provides an opportunity to investors for passively investing in a well-expanded portfolio of top banks as per free float market capitalization, as approximately represented by Nifty Bank Index

Benefits of Nippon India ETF Nifty Bank BeES

- **Well Defined Portfolio:** Nippon India ETF Nifty Bank BeES investment strategy & stock selection is clearly defined; it would replicate the Nifty Bank Index & invest only in companies forming the index in the same proportion as the underlying index
- **Diversification:** Buying a single unit currently offers diversification of 12 stocks in the banking sector
- **Transparency:** Nifty Bank Index constituents are made available in public domain on a daily basis by NSE
- **Liquidity:** ETF units are traded on exchanges & can be easily liquidated during trading hours (subject to availability of buyer/Seller). Authorised Participants/ Market Makers Participants / Large Investors also have the option of coming to the AMC for procurement/sale of units in creation unit sizes^ (10,000 units with 1 unit equivalent to 1/100th of Nifty Bank Index).
- **Margin for trading:** Nippon India ETF Nifty Bank BeES is accepted as margin for trading on NSE with applicable haircut
- **Hedging option available:** Nippon India ETF Nifty Bank BeES allows one to take exposure to the banking sector with relatively less stock specific risk, as risk gets diversified among basket of stocks
- **Index track Record:** Launched in Sep-2003, base date 1-Jan-2000 the index has a track record of 24 years

Why Invest in Nifty Bank?

Banking sector is backbone for any economy and is the key beneficiary as well as catalyst of economic recovery. We expect, the sector is set to benefit significantly from the domestic recovery over the medium to long term. The sector revival is usually characterized by the key phases of lowering of interest rates, asset quality improvement followed by higher credit off-take. The sector offers a good play on consumption & capex revival and can be a significant beneficiary of the domestic revival.

Nifty Bank Index forms the representation of Indian Banking Sector currently having 12 stocks comprising both private and PSU banks qualifying as per the index selection criterion. It is amongst the most traded sector index in India. With a lot of thrust from the government on development, this sector becomes attractive for investors.

About Nifty Bank Index

Overview

The Nifty Bank Index is designed to reflect the behaviour and performance of the large and liquid banks. The index comprises of maximum of 12* stocks and base date of the index is January 1, 2000.

Index Methodology:

Eligibility Criteria for Selection of Constituent Stocks –

1. Companies should form part of NIFTY 500 at the time of review.
2. In case, the number of eligible stocks representing the sector within NIFTY 500 falls below 10, then deficit number of stocks shall be selected from the universe of stocks ranked within top 800 based on both average daily turnover and average daily full market capitalisation based on previous six months period data used for index rebalancing of NIFTY 500
3. Further, in case the number of eligible stocks in the universe is still less than 10, then the deficit number of stocks shall be selected from the universe of stocks ranked within top 1000, top 1100, top 1200 and so on, based on both average daily turnover and average daily full market capitalization based on previous six months period data, until at least 10 eligible stocks are obtained, subject to fulfilment of other inclusion criteria. If the number of eligible stocks is still less than 10, then the index may have less than 10 constituents
4. Companies should form a part of the Banking sector.
5. The company's trading frequency should be at least 90% in the last six months.
6. The Company should have a minimum listing history of 1 month as on the cutoff date.
7. Companies that are allowed to trade in F&O segment at NSE are only eligible to be a constituent of the index.
8. Final selection of 12 companies shall be done based on the free-float market capitalization of the companies.
9. Companies will be included if free-float market capitalisation is at least 1.5 times the free-float market capitalization of the smallest index constituent in respective index
10. Weightage of each stock in the index is calculated based on its free-float market capitalization such that no single stock shall be more than 33% and weightage of top 3 stocks cumulatively shall not be more than 62% at the time of rebalancing.

Index Re-Balancing:

The index is re-balanced on a semi-annual basis effective from the last trading day of March and September.

Note: *Based on Nifty Bank Index Methodology
